

# TCS Newsletter

Friday, October 3rd

We hope you have had a wonderful week! We continue to be excited about all that the Lord is doing here at TCS. Proverbs 3:5 reminds us, *"Trust in the LORD with all your heart and lean not on your own understanding."* As we navigate each day, this verse encourages us to rely on God's guidance rather than solely on our own plans or ideas. Here are a few news items we are excited to share with you. Have a blessed and restful weekend!

**HEARING AND VISION SCREENINGS:** THROUGHOUT THE MONTH OF OCTOBER, CHILDREN IN GRADES K5, 1ST, 3RD, 5TH, 7TH, 9TH, 11TH, AND ALL NEW STUDENTS WILL HAVE VISION AND HEARING SCREENINGS. PARENTS/GUARDIANS WILL BE INFORMED IF THERE IS A NEED FOR FOLLOW-UP. ANY QUESTIONS CAN BE DIRECTED TO OUR SCHOOL NURSE ALLISON ANGLE ([ANGLEA@TCSPIONEERS.ORG](mailto:ANGLEA@TCSPIONEERS.ORG))

School Picture Re-Takes

**NOVEMBER 24th**  
1:00 Dismissal - Parent Teacher Conferences

**NOVEMBER 25th**  
Thanksgiving Break November 25th – 28th

## Students Forecast Fun in Spanish Weather Presentations!!!

Last week students stepped into the spotlight as creative meteorologists for a special Spanish class project. In pairs, students presented the weather for two days in two Spanish-speaking capital cities—adding a fun twist with imaginative forecasts, props, and interactive dialogue. From raining tacos in Mexico City to empanada-shaped lightning in Buenos Aires, the forecasts were anything but ordinary. Each presentation included unique weather expressions, high and low temperatures, and a full Spanish conversation. Using eye-catching Google slides and rehearsed scripts (no reading allowed!), students balanced speaking time, engaged the audience, and showcased their Spanish skills in a lively, memorable way. With creativity, collaboration, and a few flying tacos, these student meteorologists made weather reporting the highlight of the week!

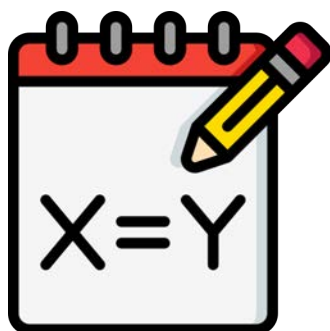

## Exploring the Science of Density:

Mr. McPherson's Environmental Science class recently completed an exciting lab on the density of different liquids. Students measured and calculated density, then combined the liquids to see how heavier liquids sink while lighter ones float. This hands-on activity brought an important scientific principle to life and helped students see science in action. Special thanks to Dr. Hite for leading this engaging lab!

## Celebrating Algebra Success:

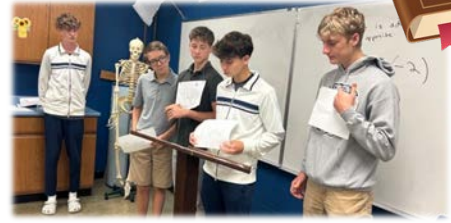

Mrs. Cooper's Algebra 1 class started the school year on a strong note! To celebrate the students' hard work and success on their first test, the class enjoyed a fun cereal party together.

## **Bringing the Story of Job to Life:**

Bible 10 students recently completed a creative project centered on the story of Job. After researching each section of the book, students worked in groups to write skits that retold the events in their own words. These presentations brought the story to life, highlighting Job's trials, perseverance, and unwavering faith. This activity not only deepened students' understanding of Scripture but also allowed them to engage with the text in a meaningful and memorable way, demonstrating both thoughtful study and creativity in sharing biblical truth.

## **8th Graders memorize God's Word:**

In small groups, Mrs. Smith's 8th grade Bible students recite the memory verse for the week aloud to the class. Hearing God's Word from one another encourages the students as they hide His Word in their hearts and apply it to their daily lives.

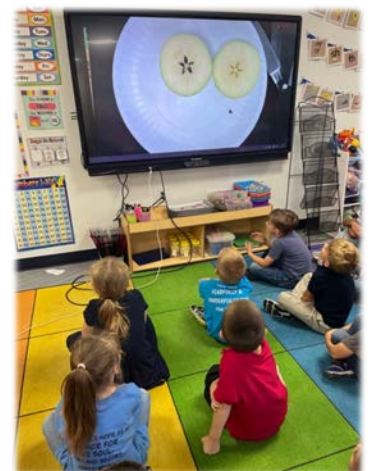

## **Showing Pink Spirit for a Cause:**

Mrs. Wierwille's K5 class proudly showed their "pink" spirit for Breast Cancer Awareness Day! The students enjoyed dressing up in pink and participating in activities that helped them learn about the importance of supporting others in need.

## **Exploring Apples and Learning:**

Mrs. Neff's Kindergarteners have been exploring the world of apples! They've learned how apples grow, identified the different parts of an apple, and even voted on their favorite variety based on taste. Using what they discovered, the students practiced graphing, writing sentences, and exploring their senses through hands-on activities.

### **Making the Most of Center Time:**

Mrs. Cockerell's second graders have settled into a great routine of using their time wisely during center activities. Students complete their "must-do" worksheets across a variety of topics, then move on to "may-do" activities. These include reading, writing, and math games, as well as reading a book and taking an Accelerated Reader (AR) quiz on the computer.

### **4th Graders Explore Acrostic Poetry:**

The 4th graders recently completed a unit on acrostic poems in English class. We are amazed by their creativity—several students even chose to write acrostic poems during their free time, showcasing their growing talent and love for writing.

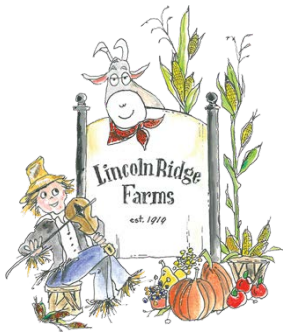

### **5th Graders Build Independence through Reading:**

In Mrs. Hurles' 5th grade class, students are learning independence and accountability in preparation for middle school. During Reading class, these focused students enjoy a few minutes of SSR (Silent Sustained Reading) with their chosen books. After reading, they take computerized Accelerated Reader quizzes to demonstrate their understanding and knowledge of the chapter books they select.

### **1st & 2nd Graders explore Lincoln Ridge Farms:**

Our first and second grade students had a fantastic time at Lincoln Ridge Farms this week! They explored fall-themed attractions, learned about the pumpkin life cycle, and enjoyed hands-on activities while experiencing the fun of the season. A special thank you to all the chaperones who helped make the day run smoothly!

**THURSDAY, OCTOBER 16th**

ONLINE ORDER: [mylifetouch.com](https://mylifetouch.com)

DAY ID: EVT6DDKX7

Order Before Midnight on October 15th for **Free Shipping**  
Or bring completed order form with cash/ check on Picture day

After picture day online orders only
